

To ensure FPA's viability, strength, impact and relevance for current and future members and volunteers.

A transformative reorganization that unites FPA and its communities through greater alignment and integration.

By dramatically increasing leadership participation in FPA and robustly beta-testing coordination and collaboration of key functions.

OneFPA Network: *Background and Intent*

FPA is a vibrant association with more than 2,000 passionate volunteer leaders working to deliver value to members while shaping the financial planning profession in the spirit of our Primary Aim: *To elevate the profession that transforms lives through the power of financial planning.* And while FPA offers a robust set of services and programs nationally and through our network of 88 chapters and state councils, there are landscape issues for national voluntary professional membership associations that FPA must proactively address to ensure it is strongly positioned to fulfill its Primary Aim for current and future generations of financial planners.

The reality is that the landscape has changed so much in recent years that FPA has to change with it. A technology-driven economy, competition from the non-profit and for-profit sectors, and the rapidly changing demographics of potential members—not to mention the increased business diversity of our membership base—are critical issues that FPA, and all voluntary membership associations, must address.

The OneFPA Network draft plan is a complete reorganization of the entire FPA enterprise that allows all key functional areas to work more closely together while simultaneously institutionalizing a process to include more chapter leader input into the strategic direction-setting of FPA. Given the landscape issues we face, we believe this a worthwhile and necessary endeavor.

OneFPA Network: *Gathering the Input to Inform Our Path Forward*

The OneFPA Network vision and draft plan was formally introduced in November 2018. Since that time, through a nationwide Listening Tour, countless stakeholders provided input that has been instrumental in shaping the Second Iteration of the OneFPA Network Draft Plan. Between November 2018 and February 2019:

We **listened** to our stakeholders' feedback.

- All chapters were contacted to arrange a listening tour meeting.
- 90% of FPA chapters participated.
- Additional meetings were held with chapter executives, members, corporate partners, past FPA presidents, NexGen leaders and other stakeholder groups.

We **learned** what changes our stakeholders wanted to see reflected in the plan.

- Stakeholders are seeking a greater voice in the association.
- Chapter autonomy is paramount.
- Better technology is required.
- Institutionalizing a higher level of collaboration and cooperation among FPA and its communities is needed.

We **adapted** the plan to incorporate feedback while maintaining the intent behind the OneFPA Network vision.

- The OneFPA Transition Task Force carefully reviewed all input and recommended substantive adjustments to the plan.
- The Board of Directors approved the Second Iteration of the OneFPA Network Draft Plan after it was fully vetted by five focus groups consisting of chapter leaders.

OneFPA Network: *Second Iteration of the OneFPA Network Draft Plan*

The Second Iteration of the OneFPA Network Draft Plan, introduced on April 16, 2019, accounts for the stakeholder feedback collected on the original draft plan, but still represents a transformational change on strategic, operational and cultural levels. The plan is divided into four key areas that serve as the pillars of the OneFPA Network:

1. **The Structure of Participatory Governance:** To institutionalize contributions from more FPA leaders in shaping the present and future of FPA, constitute the OneFPA Advisory Council and OneFPA Advisory Council Executive Committee in 2019 and the OneFPA Nominating Committee in 2020.
2. **Beta-Testing Centralized Functionality:** Create a significant and comprehensive beta-test with up to 10 chapters that will participate in the centralization of technology, accounting/finance and staffing functions.
3. **Commitments and Agreements:** Amend appropriate governance documents to reflect the principles of participatory governance and create a Master Services Agreement as an addendum to the Affiliation Agreement for beta-test chapters that outlines the responsibilities of, and commitment to, beta-test chapters.
4. **Communications and Timing:** Establish a comment period of 45 days beginning on the release date of the Second Iteration of the OneFPA Network Draft Plan on April 16 and ending on May 30. Implement a proactive communication strategy to solicit feedback on the modifications to the Second Iteration of the OneFPA Network Draft Plan. The Master Services Agreement and KPIs will be shared with stakeholders for feedback June 3 through July 1.

OneFPA Network: *What's Next?*

April 16, 2019	<ul style="list-style-type: none">• The Second Iteration of the OneFPA Network Draft Plan incorporating stakeholder feedback is available.
April 16 – May 30, 2019	<ul style="list-style-type: none">• A 45-day comment period is open.
May 27 – June 7, 2019	<ul style="list-style-type: none">• The OneFPA Transition Task Force will discuss potential plan changes.
June 3 – July 1, 2019	<ul style="list-style-type: none">• Master Services Agreement and Key Performance Indicators (KPIs) to be shared with FPA stakeholders for feedback.
July 11, 2019	<ul style="list-style-type: none">• The OneFPA Network final plan and accompanying documentation will be unveiled, and beta-test chapter applications distributed, after review and approval by the Board of Directors.
