

Internship Opportunity

Dates:

May 2022 – September 2022 (Flexible)

Description:

Intern(s) will work primarily with the Investment and Financial Planning Departments to complete research projects, mutual fund performance reporting, and database updates. Career development opportunities offered through education on basic financial planning concepts, self assessments, and staff shadowing. Looking for current college student(s) or recent graduate(s) seeking summer employment with a strong interest in investment research and financial planning. Applicants must have a strong desire to learn, be able to work independently, manage multiple tasks responsibly, and take initiative. *Applicants must be able to work the majority of the summer.*

Full-Time: Yes

Paid: Yes
